# ABOUT

**“Tea, Coffee & Chocolate Exhibition & Conference 2026” November 05-07, 2026 at ICCB, Dhaka, Bangladesh.**

The International Tea, Coffee & Chocolate Exhibition & Conference is a dedicated industry platform created to support the growth, modernization, and global connection of the tea, coffee, and chocolate Industry.

This exhibition is designed not only as a trade show, but as a business development, technology transfer, and industry advancement hub for South Asia and beyond.

Tea, Coffee & Chocolate Exhibition & Conference bringing together machinery manufacturers, ingredient suppliers, technology providers, processors, brand owners, and buyers, the event helps bridge the gap between innovation and real-world production needs.

## About the Industry – Bangladesh & South Asia

The Tea, Coffee & Chocolate industry in Bangladesh and South Asia is one of the fastest growing segments in the food and beverage sector. With a long standing tea culture, rapidly expanding coffee consumption, and a booming chocolate market, the region is emerging as a high potential market for innovation, investment, and export growth.

- Tea: South Asia produces and consumes large volumes of tea, with global tea market value projected to grow from ~USD 18 billion in 2025 to over USD 33 billion by 2035 — nearly doubling in size.
- Coffee: Coffee demand is rising quickly, especially among urban consumers and café culture, driving the global coffee market toward ~USD 400+ billion by 2035.

• Chocolate & Confectionery: The global chocolate market is expected to expand from ~USD 345 billion in 2026 to over USD 640 billion by 2035, with strong growth in South Asia.

### **Bangladesh and neighboring markets are experiencing:**

- Growing consumer demand for premium and value added beverages and chocolate products
- Increased investment in modern processing, flavor innovation, and automation technologies
- New opportunities to export high quality products and participate in global value chains

The combined regional market outlook shows significant growth potential through 2035, creating a positive business environment for manufacturers, ingredient suppliers, technology providers, and buyers.
